PLEASE NOTE: Your completed application along with all other necessary paperwork and fees must be submitted to the Land Use Office by the closing date of the meeting you wish to attend (see meeting and closing date schedule). A date, time and place will be set for the public hearing and notice will be sent to the Applicant and all other necessary individuals. The Town will publish notice of the meeting in a newspaper of general circulation.

In signing the application form, the landowner and condo/building unit owner (if applicable) or authorized applicant authorizes members of the Board and/or staff to enter onto and view the premises for the purposes of understanding the request being made. Board members and/or staff may or may not choose to view the site. The site must be clearly marked with the 911 street address to facilitate inspection. You or your representative must attend the Zoning Board hearing. If no one is present at the meeting to present your application, it will be denied without prejudice and must be resubmitted. Decisions are usually rendered by the Board at the same meeting at which the public hearing is held. In some instances, decisions may be made at a later date. The findings of the Board will be forwarded to the Applicant.

The public hearing will be held first, with the Applicant or his representative presenting his petition. Following this, those wishing to speak in favor or in opposition may do so. All comments must be directed to the Chair. Everyone rising to address the Chair shall identify himself or herself, giving his or her name and address.

In the instance where a full five-member voting Board cannot be seated, the chair will offer the applicant the opportunity to proceed with a reduced Board, or to have the hearing postponed until the next regular meeting date, with the understanding that an affirmative vote of three members is required to decide in favor of any appeal and that action by a reduced Board is not, in and of itself, grounds for a rehearing.

Reasons are given for all decisions of the Board. If the Board wishes to wait to make a decision, the Applicant will be notified. Decisions will be announced by the Chair at the time they are made, with a copy mailed to the Applicant. For additional information, see ZBA Rules and Regulations. Any party affected by the decision of the Board has the right to appeal. Please refer to the Ordinance, RSA's or contact the Land Use Office for further information on requesting a rehearing and what form that request must take.

Please note: A request for rehearing must be filed no more than 30 days from the date the Board took the action being appealed. You must request a rehearing and the Board must act to grant or deny such request before you can appeal to the courts.

APPLICATION CRITERIA

The Zoning Board must base its action regarding your application on the following criteria. Address the criteria fully in your application and in your presentation to the Board during the public hearing. If you have any questions regarding the criteria, contact your legal counsel or the Land Use Office. The Board suggests you attend a Zoning Board hearing to become familiar with the process prior to submitting your application if possible. Please refer to the Zoning Ordinance and RSA's for further information on these matters.

EQUITABLE WAIVER CRITERIA:

1. When a lot or other division of land, or structure thereupon, is discovered to be in violation of a physical layout or dimensional requirement imposed by a zoning ordinance enacted pursuant to RSA 674:16, the Zoning Board of Adjustment shall, upon application by and with the burden of proof on the property owner, grant an equitable waiver from the requirement, if and only if the Board makes all of the following findings:
 - a. That the violation was not noticed or discovered by any owner, former owner, owner's agent or representative, or municipal official, until after a structure in violation had been substantially completed, or until after a lot or other division of land in violation had been subdivided by conveyance to a bona fide purchaser for value;
 - b. That the violation was not an outcome of ignorance of the law or ordinance, failure to inquire, obfuscation, misrepresentation, or bad faith on the part of any owner, owner's agent or representative, but was instead caused by either a good faith error in measurement or calculation made by an owner or owner's agent, or by an error in ordinance interpretation or applicability made by a municipal official in the process of issuing a permit over which that official had authority;
 - c. That the physical or dimensional violation does not constitute a public or private nuisance, nor

- diminish the value of other property in the area, nor interfere with or adversely affect any present or permissible future uses of any such property; and
- d. That due to the degree of past construction or investment made in ignorance of the facts constituting the violation, the cost of correction so far outweighs any public benefit to be gained, that it would be inequitable to require the violation to be corrected.

In lieu of the findings required by the Board under subparagraphs 1(a) and (b), the owner may demonstrate to the satisfaction of the Board that the violation has existed for 10 years or more, and that no enforcement action, including written notice of violation, has been commenced against the violation during that time by the municipality or any person directly affected.

Application and hearing procedures for equitable waivers under this section shall be governed by RSA 676:5 through 7. Rehearings and appeals shall be governed by RSA 677:2 through 14.

Waivers shall be granted under this section only from physical layout, mathematical or dimensional requirements, and not from use restrictions. An equitable waiver granted under this section shall not be construed as a nonconforming use, and shall not exempt future use, construction, reconstruction, or additions on the property from full compliance with the ordinance. This section shall not be construed to alter the principle that owners of land are bound by constructive knowledge of all applicable requirements. This section shall not be construed to impose upon municipal officials any duty to guarantee the correctness of plans reviewed by them or property inspected by them.
